The Friends of the Leicester Public Library

We invite you to become a member.

A library means different things to different people. It is a place for neighbors of all ages to pick up the newest books and movies, find information, attend interesting programs, or connect to the world through high speed internet access. In order to be all things to all our neighbors, the library needs ***Friends***. The Friends of the Library raise funds by holding an annual book sale, procuring grants to support services and programs that are not funded through the annual budget. Please become a Friend of the Library and help us support the vital role the library plays in our community.
